# Lawyer Thomas Renz: Miscarriages and Cancers Up 300%, Neurological Problems Up 1000% in Past Year

**D**uring a panel discussion in the United States Senate Monday, attorney Thomas Renz, a member of [America's Frontline Doctors'](#) legal team, revealed several alarming vaccine safety signals that the U.S. government has ignored. The information was provided by three military doctors who have access to vaccination data that has been withheld from the general public.

Senator Ron Johnson (R-Wis.) convened a panel of world renowned doctors and experts to provide their perspectives on the global pandemic response, including their perspectives on “early and hospital treatment, vaccine efficacy and safety, what went right, what went wrong, what should be done now, and what needs to be addressed long term.”

The panel discussion was titled, [“COVID 19: A Second Opinion.”](#)

Renz said three Department of Defense whistleblowers—[Lt. Col. Theresa Long](#), [Dr. Samuel Sigoloff](#), and [Lt. Colonel Peter Chambers](#)—have provided stunning inside data about vaccine injuries.

“All three have given me this data in declarations that stated this is under penalty of

perjury,” Renz said. “We intend to submit this to the courts.

According to the whistleblowers, miscarriages and cancers among members of the US military have increased by about 300 percent in the past year over the five year average.

Incredibly, the doctors said the data shows a *1000 percent* increase in neurological problems, which as Renz noted, affects pilots.

“Our soldiers are being injured, experimented on, and sometimes possibly killed,” he said.

Testifying under the Military Whistleblower Protection Act, Lt. Col. Long told Johnson that she had to ground vaccinated pilots with symptoms of myocarditis out of concern that they could die of heart failure in mid-air, [the Washington Times](#) reported.

“I made numerous efforts to get senior medical leaders to at the very least inform soldiers of this risk; my concerns were ignored,” Dr. Long said during the event.

*“The colonel, an aviation safety officer, said she decided to speak up after the Centers for Disease Control and Prevention announced in June an “emergency meeting to discuss higher than expected myocarditis in 16 to 24-year-olds.”*

*Despite that announcement, she said “the military didn’t even pause their vaccination efforts”*

*to rush out the Pfizer and Moderna shots.”*

Last September, Dr. Long filed an affidavit against the Biden regime’s military vaccine mandate “as part of a pending lawsuit seeking an injunction against attempts to force service members to get the shots,” *the Times* reported.

*“The U.S. District Court for Colorado in August rejected the lawsuit originally brought by two Army staff sergeants but invited the plaintiffs to present the new evidence that includes Dr. Long’s testimony.*

*So far the Biden administration has ignored the suit.*

*Todd Callendar and David Wilson, the two lead attorneys for the plaintiffs, said this week that a military gag order allows Dr. Long to give testimony upon request to political representatives despite banning her from media appearances.”*

During his remarks, Renz also discussed shocking Department of Defense documents that came to light last fall.

A Dept. of Defense’s Joint Artificial Intelligence Center (JAIC) AI program called “Project Salus” examined data on 5.6 million Medicare beneficiaries aged 65 and older—2.7 million vaccinated with Pfizer, and 2.9 million vaccinated with Moderna.

The DoD data was reportedly posted on October 5th of 2021 on Humetrix, a website that provides real-time clinical data management to healthcare organizations and government agencies. The information has since been removed.

Renz said that despite what Fauci, Biden, and Big Pharma have been telling the American public about the safety and effectiveness of the three COVID vaccines, the weekly report said that 71 percent of new cases were in the fully vaccinated and 60 percent of the seniors hospitalized with COVID were fully vaccinated.

As the lawyer noted, the government had these numbers while officials like Dr. Fauci and Joe Biden were calling COVID a “pandemic of the unvaccinated.”

On [his website](#), Renz said: “Even with this high of a number, 60%, the real number is absolutely higher due to the skewed methods of how the government determines who is vaccinated. They are not including those that received 1 dose, only those that received 2 doses and a 14 day window has passed, and now Biden is saying boosters plus 2 shots will put you on the “fully vaccinated” list.. If you get covid within the 14 day window of being vaccinated and die like nearly 50K Medicaid patients did, your death is not counted in these statistics.”

He added: “This definitively proves that Biden and his cronies at DHHS are outright lying when they claim this is a crisis of the ‘unvaccinated.’ It’s just the opposite. It is a crisis of the poor Americans that believed Big Gov, Big Media, Big Pharma, and Big Tech when they

promoted lies that the vaccines were ‘safe and effective.’ It is unquestioningly a manipulative marketing for profit and power scheme, at the expense of Americans lives.”

“This is corruption at the highest level,” he said. “We need investigations. The Secretary of Defense needs to be investigated, the CDC needs to be investigated.”

Renz concluded by thanking Senator Johnson “for having the courage to stand up against these special interests.”
