Doctors Who Discovered Cancer Enzymes In Vaccines All Found Murdered

<https://www.instagram.com/p/BG7kIykQPH8/>

The deeper and deeper I dive into the realm of all the Nazi Eugenics taking place in America today the angrier I get.

The founders would of been shooting already!!!

After making several vaccine related posts (and more to come in the future) I couldn't help but look up Nagalase. Besides all the toxic metals,

poisons, and aborted baby parts they are injecting into less than a day old babies is this sick cancer causing enzyme. I didn't know about Nagalase till discovering the meme above last year. So, being the truth finding patriot that I am I couldn't help but do some more homework. I had to know more about Nagalase as well as the names of the actual doctors that have all been killed or mysteriously died. Just because I see a meme doesn't make it true. I always have to investigate.

Here is a list of doctors who have all been killed, or mysteriously died in the past 10 years as a result of Big Pharma. Most of them are holistic doctors. So far I've been able to identify almost 60 names:

Jeffery Bradstreet
 Teresa Sievers
 Bruce Hedendal
 Jeffery Whiteside
 Lisa Riley
 Baron Holt
 Hakeem M. Abdul-Karim
 Thomas Eynon
 Chris Coffman
 David Knotts
 Janelle A. Bottorff
 William Snow
 Christopher Spradley
 Wade Shipman
 Dick Versendaal
 Robert Grossman
 Anthony Keene
 Anita Kurmann
 Mary Rene Bovier

Dr. Jeff Bradstreet, the very first doctor listed above, was about to go public with his discovery of nagalase before being raided by the FDA and then murdered. Here are two excerpts from an article published by Dr. Kathy J. Forti about Dr. Bradstreet after his death:

GcMAF (Globulin component Macrophage Activating Factor) is not a drug, but a naturally occurring compound produced in the human body. GcMAF was being produced in Europe and Dr. Bradstreet was using it with his patients. He was conducting clinical experiments the results of which were published in scientific medical journals. (The European company that manufactured GcMAF was shut down in July 2015.)

The ability of GcMAF to do its normal job can be inhibited by the presence of a protein called alpha-N-acetylgalactosaminidase or nagalase for short. Nagalase is made by all cancer cells and viruses (HIV, hepatitis B, hepatitis C, influenza, herpes, Epstein-Barr virus, and others). Nagalase blocks production of GcMAF, thus preventing the immune system from doing its job. By using injections of GcMAF, one can boost the immune system to destroy the cancer and virus. It's the most natural cure in the world and other countries are already using it, even for pets.

I can't help but encourage everyone out there to NOT get vaccinated. Just read the inserts! Seriously, why would you willfully have yourself and/or your children injected with this stuff? Especially when EVERY big pharma vaccine manufacturer has pleaded guilty for fraud!?

"I firsthand saw that certain government agencies and certain universities are manipulating the data in order to protect the sales of vaccines and to cover up any adverse effects."

~ Dr. David Lewis

Now ask yourselves and then your doctors these questions:

How are unvaccinated kids a threat if vaccines worked?

Why aren't parents of vaccine injured children allowed to tell their stories on TV?

If these vaccines are so safe why can't parents sue the drug companies?

If the diseases were eradicated how are live virus vaccines made?

If your doctor can't answer ANY of these questions honestly then you DON'T have a doctor! You have a eugenicist who is a sales rep for Big Pharma posing as a doctor. He probably gets that hefty \$40,000 bonus from Blue Cross Blue Shield too. THINK ABOUT IT! If you spoon fed the ingredients that are in these vaccines to your child you would be put in prison! But if Big Pharma injects your child with them they get FDA approval and can't be held liable for any damages the vaccines caused. Welcome to the USSA!

And if you know they are going to enforce these vaccines at gunpoint using violence against you and your family for refusing to vaccinate then WHY HAVEN'T YOU MOVED YET? Or found an alternative place for your wife to give birth??? If you aren't going to defend them with guns like a real patriotic American would when you have every right to do so then you have to do something. Words can't describe the insanity of injecting new born babies with large amounts of highly toxic chemicals to keep them healthy.

So, right off ...

"Dr. Theresa Ann Sievers, 46, was found murdered in her Florida home in 2015. An investigation found that her husband Mark had hired two men, Curtis Wayne Wright Jr. and Jimmy Rodgers, to kill her so he could collect insurance money. "

...and...

"Dr. Bruce Hedendal, a 67-year-old doctor in Florida, was found dead in his car in June 2015. The actual cause of his death is not clear, but natural causes have been cited by Florida local TV stations. Hedendal was a

chiropractor, and there are no reports that he was involved in challenging the pharma industry in any way."

... and...

"Dr. Jeffrey Whiteside, 63, went missing after a fight with his wife and was found dead. His death was ruled a suicide"

... these are all from <https://www.politifact.com/punditfact/statements/2017/apr/04/blog-posting/doctors-deaths-were-not-connected-fake-news-website/>

The only name on that list that is connected and involved in the vaccination claptrap was Dr. Jeff Bradstreet. The Sheriff's office indicated that his wounds appeared self inflicted. Sounds like he was on his way to jail for giving people an untested and potentially dangerous substance... But that started all the conspiracy theories going. So, off you go.

Holy Jesus - Steemit was pretty good once - now it's reduced to a new account spreading pro-vax propaganda shit...WTF?

If you are not being paid to spread lies, and you are real rather than AI (most unlikely) you must be an actual retard - get another shot!
